A. INTRODUCTION

The National Board for Certified Counselors, Inc. and Affiliates (NBCC), an independent nonprofit credentialing body for counselors, was incorporated in 1982 to establish and administer a national certification system, to identify graduate-level counselors who have voluntarily met certification standards, and to maintain a registry of those counselors. NBCC is the largest counselor credentialing body in the United States.

NBCC’s primary certification is the National Certified Counselor (NCC), which is a prerequisite for all other NBCC certifications. In order to maintain NBCC certification and recertify, all NCCs must earn the equivalent of 100 hours of continuing education every five (5) years. These credits must be obtained from qualifying professional activities designed to enhance or increase the professional knowledge of graduate-level counselors.

Many state counselor credentialing boards and agencies have similar continuing education requirements. LPCs, LMHCs, LCPCs, and other state-credentialed counselors seek continuing education programs that offer NBCC continuing education credit. Therefore, NBCC continuing education approval is a valuable recognition and marketing tool that assists continuing education Providers in attracting credentialed professional counselors to appropriate educational and training programs. NBCC requirements related to the approval of continuing education Providers and single programs offered by Providers are explained in this policy.

B. NBCC APPROVAL OF CONTINUING EDUCATION PROVIDERS AND PROGRAMS

In order to offer, advertise, and grant NBCC continuing education credit (NBCC credit or NBCC hours), the Provider must either receive Approved Continuing Education Provider (ACEP) status from NBCC, or receive approval from NBCC to grant credit for a specific single program. All Approved Continuing Education Providers and single program Providers (continuing education Providers or Providers) must comply with the requirements explained in this NBCC Continuing Education Provider Policy (Provider Policy or Policy). NBCC has the sole discretion to determine whether a continuing education Provider or program is in compliance with the Policy requirements. Each Provider offering NBCC credit is solely responsible for submitting to NBCC all required information and documentation demonstrating that the Provider and the Provider’s programs are in compliance with the Policy. Providers failing to demonstrate compliance with this Policy may be sanctioned by NBCC, including the disqualification of noncompliant programs and/or Providers.

1. **Provider Types.** NBCC accepts continuing education credits and hours from two (2) types of Providers for qualifying programs.

   (a). Approved Continuing Education Providers (ACEPs). ACEPs are Providers that have satisfied NBCC eligibility requirements, and have been granted ACEP status consistent with the Provider Policy terms. Subject to specific program format approval by NBCC, an ACEP may offer NBCC credit for: live, in-person and online programs; and, home study programs. Providers granted NBCC ACEP status are authorized to offer NBCC credit for each program, course, or presentation (program) that the ACEP determines meets all NBCC requirements and otherwise qualifies for NBCC credit, subject to NBCC verification or disqualification under the Policy terms.

   (b). Single Program Providers. Single program Providers are Providers that offer single continuing education programs that have been specifically approved by NBCC prior to the program, consistent with this Policy and the directives of NBCC. Single program Providers must satisfy all Policy
requirements, including program content and instructor/presenter (presenter) rules before NBCC credit is offered or awarded. Following approval, the Provider may offer NBCC credit for the specific NBCC program.

2. ACEP Program Formats. Programs offered by ACEPs for NBCC credit may be presented in the following program formats, consistent with this Policy and the directives of NBCC:

   (a). Live Event Delivery Format: real-time, interactive programs either delivered in person or by electronic devices that permit the participant to communicate and interact with the presenter(s), including qualified programs delivered solely for in-service training directly related to employment.

   (b). Home Study Delivery Format: text-based learning materials, on-demand webinars, and other audio/visual materials that include an assessment demonstrating that the participant completed the program.

3. Single Program Format. Single program Providers may only offer live event programs for NBCC credit, including real-time interactive programs, including in-service programs, presented in person or by electronic devices that permit the participant to communicate and interact with the presenter(s) consistent with this Policy and the directives of NBCC.

4. NBCC Authority. NBCC retains the exclusive authority and final discretion to approve programs, and to determine whether a program qualifies for NBCC credit.

L. ACEP COMPLIANCE DEFICIENCY PROCEDURE

1. ACEP Compliance Review Process.

NBCC will review all potential deficiency matters and complaints related to an ACEP’s compliance with the requirements of this Policy, NBCC agreements, and directives from NBCC related to this Policy to determine if an audit or other review of the deficiency matter should be initiated. Based on such review, and in its sole discretion, NBCC will determine whether a formal Compliance Deficiency Notice (Deficiency Notice) is warranted concerning an ACEP. NBCC may require that the ACEP submit additional information
and/or materials related to the review of a potential deficiency matter.

2. ACEP Deficiency Correction Letters.

In the event that NBCC determines that an ACEP has acted inconsistent with this Policy or other NBCC requirements, and that the matter concerns a minor or technical violation, NBCC may issue a deficiency correction letter. NBCC will not issue sanctions concerning minor deficiency letters, and the corrective actions specified may not be appealed.

If the apparent deficiency is the subject of a complaint by another party, the identity of the complainant will not be identified to the Provider.

Based upon the information received and reviewed, including the ACEP’s response to the Deficiency Notice, NBCC will determine whether the Provider will be the subject of a compliance deficiency action, which may include: conditions related to the Provider’s ACEP status; ACEP status probation; and/or, termination of ACEP status. The ACEP and complainant, if applicable, will be notified of the NBCC deficiency determinations and the decision in writing.

The President/CEO appeal decision will be sent to the ACEP and complainant, if applicable, via U.S. mail, return receipt requested, or other appropriate delivery method.

7. Reinstatement and Reapplication Procedures Following ACEP Conditions, Probation, or Termination.
