

# National Clinical Mental Health Counseling Examination (NCMHCE)

## Comparison: Old and New Examination Formats

	Old Format	New Format
<b>Availability</b>	Certification candidates: until Spring 2022 Licensure candidates: until October 2022	Certification candidates: beginning Fall 2022 Licensure candidates: beginning November 2022
<b>Examination Description</b>	Ten (10) clinical simulations designed with a focus on clinical decision-making. Each simulation is divided into 5–10 sections classified as either Information Gathering or Decision-Making.	Eleven (11) case studies designed to replicate the actual work of a clinical mental health counselor, working with a client over time, through intake and in clinical sessions. The case studies are designed to capture an examinee's ability to identify, analyze, diagnose, develop, and implement plans for treatment of clinical concerns. Each case study includes one narrative and 13 multiple-choice questions.
<b>What content is measured?</b>	The examination covers the following content areas: Assessment and Diagnosis; Counseling and Psychotherapy; and Administration, Consultation, and Supervision.	The examination covers the following content areas based on the <a href="#">new Content Outline</a> : Professional Practice and Ethics; Intake, Assessment, and Diagnosis; Treatment Planning; Counseling Skills and Interventions; and Core Counseling Attributes.
